

# Testing the `linenos` option for code blocks

This is a code block without `:linenos:`. The line numbers should not display.

```
"line 1 without linenos"  
"line 2"  
  
"line 4"  
  
  
  
  
  
  
  
"line 10"
```

This is a code block with `:linenos:` is set with no value. The line numbers should display.

```
1 "line 1 with linenos="  
2 "line 2"  
3  
4 "line 4"  
5  
6  
7  
8  
9  
10 "line 10"
```

## Boolean values

This is a code block with `:linenos:` is set to `true` (lowercase). The line numbers should display.

```
1 "line 1 with linenos=true"
2 "line 2"
3
4 "line 4"
5
6
7
8
9
10 "line 10"
```

This is a code block with `:linenos:` is set to `True` (capitalized). The line numbers should display.

```
1 "line 1 with linenos=True"
2 "line 2"
3
4 "line 4"
5
6
7
8
9
10 "line 10"
```

This is a code block with `:linenos:` is set to `false` (lowercase). The line numbers should not display.

```
"line 1 with linenos=false"
"line 2"

"line 4"

"line 10"
```

This is a code block with `:linenos:` is set to `False` (capitalized). The line numbers should not display.

```
"line 1 with linenos=False"
"line 2"

"line 4"

"line 10"
```
